#### **Course Description:**

Explosives IQ trains responders on the HazMat IQ Above the Line/Below the Line 4-Step System with an emphasis on explosives and the chemicals used to make those explosives (precursors). This course focuses on readily available materials that first response personnel have a high probability of encountering in fixed locations and transportation events. Using the revolutionary, all hazard HazMat IQ response system; students will learn the hazards of these potential explosive chemicals, personal protective equipment considerations and the use of detection and monitoring equipment.

#### **Topics Covered:**

- Refresher of the HazMat IQ Above the Line/Below the Line System
- Prevalent explosives and chemical precursors
- Explosives In Transportation
- Choosing the correct PPE when responding to explosives incident
- Meters/Air Monitoring Equipment
- Interactive discussion, using real life scenarios

#### **Student Criteria:**

This course is open to all Emergency Management, Rescue, Fire, Emergency Medical, and Law Enforcement personnel or any organization having responsibility for responding to a hazardous materials incident. HazMat Awareness and Operations class would be beneficial to the student.

#### **Special Notes:**
